

What is claimed is:

- 1) A method of treatment comprising:
 - a) providing a patient suffering from a condition treatable by the administration of a NSAID, an antibiotic, a cardiovascular agent, a muscle relaxant, a diuretic, an antiepileptic, or an antiproliferative agent, and
 - b) administering to said patient a compound that yields in vivo a radical represented by the formula: spacer-OC(O)R' , wherein:
 - i) spacer is $-(\text{CH}_2)_n-$,
 - ii) n is from 1 to 6, and
 - iii) R' is substituted or unsubstituted morpholine.
- 2) An improved method of treatment of the type wherein a NSAID, an antibiotic, a cardiovascular agent, a muscle relaxant, a diuretic, an antiepileptic, or an antiproliferative agent, is administered to a patient in need thereof, wherein the improvement comprises:
 - a) preparing a pharmaceutical agent by linking to said NSAID, antibiotic, cardiovascular agent, muscle relaxant, diuretic, antiepileptic, or antiproliferative agent, a molecule represented by the formula: spacer-OC(O)R' , wherein:
 - i) spacer is $-(\text{CH}_2)_n-$,
 - ii) n is from 1 to 6, and
 - iii) R' is substituted or unsubstituted morpholine;
 - b) administering said pharmaceutical agent to said patient in need thereof.
- 3) An improved method of treatment of the type wherein a NSAID, an antibiotic, a cardiovascular agent, a muscle relaxant, a diuretic, an antiepileptic, or an antiproliferative agent, is administered to a patient in need thereof, wherein the improvement comprises:
 - a) administering to said patient a precursor of a compound represented by the formula: spacer-OC(O)R' , wherein:
 - i) spacer is $-(\text{CH}_2)_n-$,
 - ii) n is from 1 to 6, and
 - iii) R' is substituted or unsubstituted morpholine.

- 4) The method of claim 1 in which the compound is 1-(p-chlorobenzoyl)-5-methoxy-2-methylindole-3-acetic acid morpholinocarbonyloxyethyl ester.
- 5) The method of claim 1 in which the compound is (+)-6-methoxy- α -methyl-2-naphthaleneacetic acid morpholinocarbonyloxyethyl ester.
- 6) The method of claim 1 in which the compound is 2-[(2,6-dichlorophenyl)]amino]benzene-acetic acid morpholinocarbonyloxyethyl ester.
- 7) The method of claim 1 in which the compound is m-benzoylhydratropic acid morpholinocarbonyloxyethyl ester.
- 8) The method of claim 1 in which the compound is 2-[(2,3-dimethylphenyl)amino]-benzoic acid morpholinocarbonyloxyethyl ester.
- 9) The method of claim 1 in which the compound is α -methyl-4-(2-methylpropyl)benzene-acetic acid morpholinocarbonyloxyethyl ester.
- 10) The method of claim 1 in which the compound is 5-benzoyl-2,3-dihydro-1H-pyrrolizine-1-carboxylic acid morpholinocarbonyloxyethyl ester.
- 11) The method of claim 1 in which the compound is a salicylate selected from aspirin, salicylamide O-acetic acid, salsalate, and diflunisal.
- 12) The method of claim 1 in which the compound is an arylacetic acid selected from indomethacin, tolmetin, diclofenac, etodolac, lodrine, nabumetone, 6-MNA, fenclorac, isofezolac, fenclofenac, alclofenac, and zomepirac.
- 13) The method of claim 1 in which the compound is an arylpropionic acid selected from ibuprofen, naproxen, ketoprofen, fenoprofen, suprofen, flurbiprofen, ketorolac, carprofen, oxaprozin, orudis, flunoxaprofen, orpanoxin, pirprofen, pranoprofen, oraflex, and indoprofen.
- 14) The method of claim 1 in which the compound is a fenamic acid selected from mefenamic acid, meclofenamate, meclomen, niflumic acid, amfenac, and bromfenac.
- 15) The method of claim 1 in which the compound is selected from benemid, clidanac, methotrexate, tolfenamic acid, fenclozic acid, and fenbufen.
